# Feedback!

*Very good. Easy to read and easy to understand.  
Enjoyable!*

*I liked the task: "Getting to know each other" because  
I am very interested in the stories of other students.*

*The module was interesting and easy to carry on.  
The questionnaire was a useful tool to reflect about  
oneself's motivation, capacity and knowledge on being  
entrepreneurs.*

*This course is amazing and this is really clear  
from the first module*
